

Free Youth Mental Health Training for Adults in our Community

The Youth Curriculum is designed to help those who specifically work with youth (12-18 years old) recognize the potential risk factors and warning signs of a variety of mental health challenges common among adolescents.

Examples of people who may benefit from the youth curriculum are: teachers or future teachers, school staff, parents of teenagers, youth group leaders, 4-H leaders, coaches/volunteers of youth sports, etc.

Educators will earn contact hours toward CEUs for license renewal.

Youth Curriculum – April 13, 2018
